

**LOVCEN**  
**SECOND TRAINING PLAN (SECOND RESEARCH YEAR June 2015 – May 2016)**

No.	Training / Study visit	Participants		When		Where (State/City)	Estimated cost ( Euro )	Description	Comments (preparation /in progress /finished...)	Realized	
		Category of participants	No. of Participants	Date	No. of days					Yes	No
2.1	In situ training to: BTF for: Finalization of KOMARAC APP and creation of interactive map of Montenegro for visualization of determinate mosquito species (WP2c)	Ilija Arsenic FoA, researcher from partner organization	1	22-26 June 2015	duration 5 Total 5	Montenegro, Podgorica	1625	This activity is planned to support collaborative research on KOMARAC APP function (WP1b) and visualization and through creation of interactive map to promote LOVCEN's results in mosquitoes determination.			
2.2	In situ training to: BTF for: Practical training in implementation of mosquito surveillance and non-chemical control measures in Montenegro. (WP2c)	Romeo Bellini CAA, key researcher, WP1 leader, responsible person for partner organization	1	August 2015	duration 5 Total 5	Montenegro	2100	Continuation of trainings from first research year - This activity is planned to support collaborative research on surveillance of MV/MBD and non-chemical control measures in Montenegro. Apart from direct involvement in research activities (WP1a and WP1e), international partners will provide specific practical training to MCM - implementation of mosquito surveillance, also providing <i>in situ</i> field training.	The exact date will be fixed latter		
2.3	Training / Study visit to: FoA for: Training in climate change (CC) phenomenon. (WP2a)	Slavica Micev IHMS, researcher from partner organization  IHMS researcher	2	August - September 2015	duration 5 Total 10	Serbia, Novi Sad	1608	Continuation of trainings from first research year - The purpose is to be trained in climate change (CC) phenomenon, causes and consequences, climate change on global and regional level, analysis of weather data series of past climate, identification of CC "signal" in past climate, climate simulations, basics of climate models, quantification of CC effect, climate change assessment, tools for CC assessment studies (WP1f).	The exact date will be fixed latter		
2.4	Training / Study visit to: FoA for: mosquito identification. (WP2a)	Igor Pajovic BTF, project leader, WP4 leader  Ljiljana Pajovic BTF, WP3 leader, researcher	2	September - October 2015	duration 14 Total 28	Serbia, Novi Sad	3680	Continuation of trainings from first research year - The aim of this training is mosquito identification (WP1a), most recent advances in invasive mosquito surveillance and mosquito vector sampling for virus identification, novel developments in mosquito control methods. They will lead to implementation of the ECDC "Guidelines for the surveillance of invasive mosquitoes in Europe" and introducing the sustainable programme for monitoring of indigenous MV species.	The exact date will be fixed latter		
2.5	Know-how visits of MCM's researchers to research partnering organisations (WP 2a) to: NIV for: Training in the techniques of molecular detection of mosquito borne viruses. (WP 2a)	IPH researcher	1 BICE 2 duration 5 total duration 10	October, November, December 2015	duration 14 Total 14	Serbia, Novi Sad	1840 ista cifra	Training visits of MCM's young researchers to international partner institutions. During the visit researcher will be trained in the techniques of molecular detection of mosquito borne viruses (WP1c), preparation of "in house" tests and veterinary surveillance of	The exact date and name of the researcher will be fixed latter		

								MBV. Afterwards, researcher will be able to fully exploit the capabilities of RT-PCR.			
2.6	<p>Training / Study visit</p> <p>to: IZSLER</p> <p>for: Training in the techniques of molecular detection of mosquito borne viruses in the Emilia Romagna Region.</p> <p>(WP 2a)</p>	<p>IPH researcher</p> <p>IPH researcher</p>	2	<p>October, November, December 2015</p>	<p>duration 5</p> <p>Total 10</p>	<p>Italy, Reggio Emilia</p>	2850	<p>During the visit researchers will be trained in the techniques of molecular detection of mosquito borne viruses (WP1c), preparation of “in house” tests and integration with entomological surveillance in the Emilia Romagna Region. Afterwards, they will be able to fully exploit the capabilities of PCR.</p>	<p>The exact date and name of the researcher will be fixed latter</p>		
2.7	<p>Know-how visits of MCM's researchers to research partnering organisations (WP 2b)</p> <p>to: NIV and FoM</p> <p>for: Training in the techniques of molecular detection of mosquito borne viruses.</p> <p>(WP 2b)</p>	<p>IPH researcher</p> <p>IPH researcher</p>	2	<p>October, November, December 2015</p>	<p>duration 5</p> <p>Total 10</p>	<p>Serbia, Novi Sad</p>	1692	<p>Know-how visits of senior MCM's researchers to research partnering organizations and/or other international organizations/consortia. During the visit researcher will be trained in the techniques of molecular detection of mosquito borne viruses and preparation of “in house” tests as well as veterinary surveillance of MBV. After the course, researchers will be able to fully exploit the capabilities of PCR.</p>	<p>The exact date and name of the researcher will be fixed latter</p>		
2.8	<p>In situ training</p> <p>to: IPH</p> <p>for: Planning the research activities in MBD survey in Montenegro.</p> <p>(WP 2c)</p>	<p>Tamas Petrovic</p> <p>NIV, key researcher, responsible person for partner organization</p>	1	<p>October, November 2015</p>	<p>duration 5</p> <p>Total 5</p>	<p>Montenegro, Podgorica</p>	1625	<p>This activity is planned to support collaborative research on surveillance of MBD in Montenegro in mosquitoes (WP1c). International partner will come to Montenegro to help in planning the research activities and to provide specific laboratory / practical training to MCM in MBD surveillance.</p>	<p>The exact date will be fixed latter</p>		
2.9	<p>In situ training</p> <p>to: IPH</p> <p>for: Planning the research activities in MBD survey in Montenegro.</p> <p>(WP 2c)</p>	<p>Michele Dottori</p> <p>IZSLER, key researcher, responsible person for partner organization</p>	1	<p>November 2015</p>	<p>duration 5</p> <p>Total 5</p>	<p>Montenegro, Podgorica</p>	2100	<p>This activity is planned to support collaborative research on surveillance of MBD in Montenegro in human sera. International partner will come to Montenegro to help in planning the research activities and to provide specific laboratory / practical training to MCM in MBD surveillance. (WP1c)</p>	<p>The exact date will be fixed latter</p>		
2.10	<p>Work shop</p> <p>to: BTF</p> <p>for: Training in research skills and innovation capacity building.</p> <p>(WP 3a)</p>	<p>Stephen Quarrie</p> <p>BTF, key researcher, associate Professor of BTF</p>	1	<p>December 2015</p>	<p>duration 5</p> <p>Total 5</p>	<p>Montenegro, Podgorica</p>	1068	<p>Workshop to MCM staff in innovative research, presentation skills, manuscript and project writing, time and human resources management, research supervision in order to bring research, personnel and resources in line with education and research strategy and maximize efficiency of the research process.</p>	<p>The exact date will be fixed latter</p>		
2.11	<p>In situ training</p> <p>to: IPH</p> <p>for: Planning the research activities in MBD survey in Montenegro.</p> <p>(WP 2c)</p>	<p>Vesna Milosevic</p> <p>FoM, key researcher, responsible person for partner organization</p> <p>Ivana Hrnjakovic</p> <p>Cvjetkovic FoM, researcher from partner organization</p>	2	<p>December 2015</p>	<p>duration 5</p> <p>Total 10</p>	<p>Montenegro, Podgorica</p>	3250	<p>This activity is planned to support collaborative research on surveillance of MBD in Montenegro (WP1c). International partners will come to Montenegro to help in planning the research activities and to provide specific laboratory / practical training to MCM in MBD surveillance. As well as to transfer their experiences in the field of prevention of infectious diseases associated with mass gatherings.</p>	<p>The exact date will be fixed latter</p>		

2.12	In situ training to: BTF for: Planning the research activities, practical training (implementation of mosquito surveillance...) and non- chemical control measures in Montenegro.  (WP2c)	Marija Zgomba FoA, researcher, researcher from partner organization	1	February – April 2016	duration 5 Total 5	Montenegro, Podgorica	1625	This activity is planned to support collaborative research on surveillance of MV/MBD and non-chemical control measures in Montenegro. Apart from direct involvement in research activities (WP1e), international partners will provide specific practical training - implementation of mosquito control.	The exact date will be fixed latter		
2.13	In situ training to: IHMS for: Training in climate simulation and climate change assessment.  (WP 2c)	Branislava Lalic FoA, researcher from partner organization  FoA researcher	2	March 2016	duration 5 Total 10	Montenegro, Podgorica	1750	Continuation of trainings from first research year - The purpose is to be trained in climate change (CC) phenomenon, causes and consequences, climate change on global and regional level, analysis of weather data series of past climate, identification of CC "signal" in past climate, climate simulations, basics of climate models, quantification of CC effect, climate change assessment, tools for CC assessment studies (WP1f).	The exact date will be fixed latter		
2.14	Participation of the applicant's research staff at international conferences	LOVCEN researcher	1	during the 2 <sup>nd</sup> research year	duration 5 Total 5	/	1000	Participation of the applicant's research staff at international conferences	The exact date, name of the researcher and place of conference will be fixed latter		
2.15	Annual meeting  BTF for: official overview of the 2 <sup>nd</sup> year of the Project and planning work in 3 <sup>rd</sup> year  (WP 4)	Romeo Bellini Dusan Petric Cosmin Salasan Michele Dottori Paolo Bonilauri Tamas Petrovic Steve Quarrie	7	May 2016	duration 3 Total 21	Montenegro, Podgorica	5744	Gathering all Project partners, PMT and LMT. Presentation of 2 <sup>nd</sup> year work and creation of the Action/Work plan for the 3 <sup>rd</sup> year of the Project. - overall project management, - budget management, - reports to the HERIC, - overview in progress reports, - coordination and cooperation on the project, - overview to the project progress, - planning new developments in research and research strategy, - identifying Horizon 2020 opportunities, - managing to build more effective links with stakeholders, business partner and users of results.			
		<i>Total</i>	<i>27</i>		<i>148</i>		<i>33.557</i>				

The activities No. 2.2, 2.3, 2.4, 2.6, 2.10, 2.13 are continuation of the activities/trainings/mobility's from the first research year according to the Project Plan and Project Budget. In Project proposal, as well as in proposed/accepted Budget plan, is planned that activities/trainings will be spread throughout the years of Project life-time. On that way the activities are subdivided into parts, one part for every year needs to be accomplished. On this way at the end of the Project proclaimed goal of, each, mobility will be reached.
