------	--

1. What is your opinion: Is mosquito control regulated by the law?
yes
no
2. If the answer to previous question was „yes“, do you consider the need for more precise legislation concerning control of mosquitoes and MBD (preparation of detailed National strategy/plan of action in case of risk and/or outbreaks of MBD)?
yes
no
3. Is there mosquito control in your municipality and how it is performed?)
adult control from the ground (smoke, fog)
control of larvae that live in water (manholes, septic tanks, ditches, pools)
both adults and larvae
no
4. If the answer to previous question was „yes“ (a or b or c), do you think it is necessary to evaluate success of the control action?)
yes
no
5. Do you think that mosquito control is necessity?
yes
no
6. If the answer to previous question was „no“, would you be ready to change your opinion if you learn that some of dangerous mosquito-borne diseases emerged in Montenegro (WN fever, chikungunya fever, malaria)?
yes
no
7. Establishing the National program of surveillance of mosquitoes and MBD could detect virus circulation one month before the first human cases occur and therefore provide enough time for intense mosquito control. Would you support establishing of the National program of surveillance of mosquitoes and MBD?
yes
no
8. National surveillance program will provide the capacity for evaluation of the control measures and improved legislation/contracts will be a tool to oblige the mosquito control operator to repeat unsuccessful treatment from its own resources. Do you think that independent and objective evaluation of control measures is needed?
yes
no
9. How much you spend on personal mosquito protection (nets, coils, tablets, evaporizers, candles, sprays, repellents, after bite creams) per year?
I am spending up to ___ per year
I do not consume any of them
10. Would you financially support surveillance and control of mosquitoes and MBD?)
yes, up to 5 € per year
yes, up to 10 € per year
yes, up to 20 € per year

- yes, up to 30 € per year
- yes, up to ____ € per year
- no

11. Do you think that tourists could be repelled from their destinations in Montenegro by mosquito nuisance or outbreak of MBD?

- yes
- no

12 What do you think about cost shering/bearing (in %) costs of MBD monitoring and mosquito control between these three sectors?

- a. Citizens/ tourist operators
- b. Municipalities
- c. Government
