Subject: Report from the workshop TAIEX Multi Country Workshop on implementation of EU surveillance for invasive mosquitos for enlargement countries, held in Brussels, Belgium 4-5 December in cooperation with the European Centre for Disease Control and Prevention

Respected,

In the period from 04th to 05th December 2014 we attended a workshop **TAIEX Multi Country Workshop on implementation of EU surveillance for invasive mosquitos for enlargement countries**, which was organized in cooperation with the European Centre for Disease Control and Prevention. At the workshop, in addition to representatives of the ECDC and WHO, where present representatives from the following countries: Austria, Belgium, Bulgaria, Croatian, Czech Republic, Denmark, Finland, France, Greece, Hungary, Italy, Portugal, Romania, Sweden, Great Britain, Albania, Bosnia and Herzegovina, Macedonia, Kosovo, Serbia and Turkey. During the workshop the new, processed guide to the supervision of the indigenous species of mosquitoes in Europe and a number of presentations from representatives of the EU and outside the EU concerning current topics. We must emphasize that we have successfully presented the project "LOVCEN" and shared the written form of the same presentation. After the conclusions of the discussions, which were held during the workshop, LOVCEN was mentioned as a good example of functioning when it comes to this issue.
